Karibuni Sana! Welcome

Embassy of Switzerland in Nairobi

The Embassy of Switzerland in Nairobi is in charge of bilateral relations between Switzerland and Kenya, as well as Burundi, Rwanda, Somalia and Uganda. In other words, Nairobi is the Swiss diplomatic hub for East Africa and the Great Lakes Region. Furthermore, the Embassy also assumes multilateral mandates, as Kenya is hosting UNEP and UN-Habitat.

Since its establishment in 2003, our Zurich / Switzerland based company has developed into a leading independent financial advisory boutique in the energy, infrastructure and industrial sectors. AIL provides its advisory services for projects located in emerging as well as in developed markets.

www.ailsf.ch

Hitachi Zosen INOVA

Zurich-based Green-tech company Hitachi Zosen Inova (HZI) is a global leader in solutions for energy transition and circular economy including Energy from Waste and Renewable Gas, operating as part of the Hitachi Zosen Corporation Group. HZI acts as project developer, technology supplier and engineering, procurement and construction contractor delivering complete turnkey plants and system. Its solutions have been part of more than 1,600 reference projects worldwide.

ECO WASTE HOLDINGS Ltd

The Company is a Special Purpose Vehicle (SPV) for Energy Production in the region as an Independent Power Producer. ECO Waste Holdings Ltd strategic business plan focuses on exploitation of high value resources and high impact services particularly in Tanzania, Eastern and South-Central Africa in general. The portfolio includes: Gas to Energy, Waste to Energy, Hydro to Energy, Transmission Lines. ECO Waste Holdings Ltd is currently having a footprint in United Republic of Tanzania and Republic of Zambia.

renergia

Renergia Zentralschweiz AG is responsible for more than just the recycling of Central Switzerland's waste. At the same time, it supplies Perlen Papier AG with process steam, the Rontal and Emmen / Lucerne district heating networks with hot water and provides electricity for thousands of households. It is therefore a power plant – the largest in the canton of Lucerne.

www.renergia.ch

Sintmond Group Ltd has been in existence since 2004, and the organization is made up of divisions Energy, Infrastructure, Inspection and Environment. In the Environment division, we are registered by NEMA to offer Solid Waste Recycling and Disposal services and we do this through our facility called MRF (Material recovery facility – based on smart waste zero concept).
